Les Aliments Mise en bouche

Les Aliments Mise en bouche specializes in handmade production of frozen canapés and appetizers. We love small bites, that's why we have drawn from all our expertise and our passion to create a distinctive range of products.

We bring together the best of both worlds: the art of handcrafted fine foods combined with the most advanced production technologies!

It is at the heart of a whole new 10,000 square foot factory kitchen, recently built in Saint-Eustache in the Laurentians, that the company Les Aliments Mise en bouche, established in 2013, proudly prepares one of the most impressive varieties of canapes and appetizers on the market.

After completing her studies in food processing, Annie Ménard, founder of the company, decided to get started in the world of food service and bring to life her passion for small bites by combining the particular touch of handcrafted foods and cutting edge production technologies.
